

Input Attestation

With the Input Attestation service, **ECOCERT takes the documentary review one step further** and enables enhanced reliability and traceability issuing a formal statement on the compliance of your products with the requirements of the European Council Regulation 834/2007 and the National Organic Program (NOP – USA).

Why choose Ecocert?

For real added value, ECOCERT has implemented an in-depth auditing process including an **onsite inspection of all manufacturing facilities** and a full documentary review:

- The “ECOCERT Inputs” logo on your product packaging and commercial documents.
- A “commercial attestation” on the compliance of your products.
- **Product labels** bearing the following references:
 - “Audited by ECOCERT SA F-32600”
 - “NOP compliant product”
 - “Suitable for organic farming in compliance with Regulation (EC) 834/2007”
 - Your products are listed on our website on the Input List as approved for use in organic farming.
