

# Input Verification

In order to meet the rising demands of professionals and private individuals, ECOCERT has implemented a process based on a documentary review for the assessment of the compliance of your products with Council Regulation (EC) 834/2007 and the National Organic Program (NOP - USA).

## Why choose Ecocert?

- A professional service for a fast & low cost option.
- The online Input list on the ECOCERT website: your products are listed as "Suitable for organic farming" via a dedicated ECOCERT web page.
- More than 2500 product references by 350 major manufacturers.
- Our dedicated website is available to all our certified clients as well as professionals of the organic industry and eco-friendly private individuals. The product listing service provides your company with enhanced international exposure.
- The following references on your labels and packaging: "Suitable for organic farming in compliance with Council Regulation (EC) 834/2007 and/or the National Organic Program (NOP - USA)".
- Added-value for your brand image: the expertise of a major worldwide organic certification provider (#1 in France).

## Eligible products

All products associated with requirements set by Regulation (EC) 889/2008 Annexes I, II, VI, VII, VIII of and/or NOP Regulation §205.600 to §205.605 :
